

APEKSHA GUPTA

Software Developer | Software Engineer

Gwalior, Madhya Pradesh, India · +91 91311 38550 · guptaap783@gmail.com

Professional Summary

Software Developer with 1+ year of professional experience in designing and developing web applications using Angular, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Node.js, and REST APIs. Experienced in frontend and backend development, responsive UI implementation, API integration, and working with relational databases including MySQL and PostgreSQL. Currently working as a Software Engineer at Ubitech Solutions, contributing to HRMS software development using Angular, AdonisJS, TypeScript, and MySQL. Strong understanding of web application development, debugging, Git-based version control, and database-driven applications. Seeking a Software Developer opportunity in an MNC where I can contribute to scalable applications and continue expanding my technical expertise.

Technical Skills

Frontend Development — HTML5, CSS3, JavaScript, TypeScript, Angular, React, Tailwind CSS

Backend Development — Node.js, AdonisJS, REST APIs

Databases — MySQL, PostgreSQL

Tools — Git, GitHub, Visual Studio Code, Postman, MySQL Workbench

Professional Experience

Software Engineer — Ubitech Solutions Pvt. Ltd., Gwalior

July 2025 — Present

- Developed and maintained web application interfaces using Angular, TypeScript, HTML, CSS, and Tailwind CSS.
- Designed and implemented responsive user interfaces with a focus on usability and consistent application behavior.
- Integrated frontend applications with REST APIs for retrieving, submitting, and updating application data.
- Used TypeScript to develop reusable and maintainable frontend functionality.
- Collaborated with backend services built using AdonisJS and Node.js.
- Worked with MySQL databases for application data and database-driven functionality.
- Used Git and GitHub for source-code management and collaborative development.
- Tested and troubleshooted APIs using Postman and resolved frontend and integration-related issues.
- Contributed to both frontend and backend development activities based on project requirements.

Projects

HRMS Software

Technologies — Angular, TypeScript, Tailwind CSS, Node.js, AdonisJS, MySQL

- Contributed to the development of an HRMS web application with a focus on frontend development and user interface implementation.
- Developed application screens and reusable UI components using Angular and TypeScript.
- Implemented responsive layouts using Tailwind CSS.
- Integrated frontend components with backend REST APIs.
- Worked with MySQL-backed application functionality and data-driven interfaces.
- Contributed to frontend and backend development to support business requirements.
- Used Git-based workflows for maintaining and managing project source code.
